A really great publication with lucid and perfect reasons. I have read through and i am confident that i am going to gonna read yet again yet again down the road. It is extremely difficult to leave it before concluding, once you begin to read the book.

Brand New Book ***** Print on Demand *****.Excerpt from The Art of Playwriting: Being a Practical Treatise on the Elements of Dramatic Construction There are two classes of readers for whose needs a book of this sort should aim to provide: (1) those who know much about the practical workings of the theatre, but have little constructive knowledge; and (2) those whose instinct for dramatic construction is strong, but who, through lack of opportunity, have acquired little insight into the practical details of stage representation. With this end in view, the work has been arranged in two principal divisions, the first dealing with the minutiae of the theatre, the second with the principles of dramatic construction. In the first the reader is inducted into the twilight region which lies beyond the scenes, told the name and function of the pieces of stage machinery, introduced to wings, flats, set-pieces, grooves, tormentors, - taught the office of the various exits and entrances, initiated into the mysteries of stage conventionalities - in short, made acquainted with every feature of the modern stage which concerns him as a working playwright.
