By L D Harvey

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Harvey s Essentials of Arithmetic, Vol. 2: With Everyday Problems Relating to Agriculture, Commerce, and Other Vocations This book is intended to cover, in particular, the work of the fifth, sixth, seventh, and eighth years. It begins, however, with a comprehensive review of notation and numeration, and the four fundamental operations, which makes it a book complete in itself. A thorough treatment is given of common and decimal fractions, denominate numbers, percentage and its applications, and other subjects usually taught in the upper grades. Great care has been taken to eliminate useless and obsolete subjects and to fill their places with matters relating to the present-day interests of the pupils and to modern business problems. The main purpose of the book is to secure accuracy and speed in the handling of numbers, and sureness in the interpretation of such problems as come within the range of the pupils experience. There is thorough drill in abstract number processes. In their concrete application an effort has been made to substitute for unreal or unstimulated conditions many problems...
