This survey is part of a series of cooperative investigations of educational, health, and sociological conditions in the State of Delaware by the Public Health Service, the National Bureau of Education, the Children s Bureau, and other agencies. In order to supply certain data desired by the Children s Bureau in their investigations, the mental survey herein reported was conducted preliminary to the general survey. It continued from January 6 to May 1, 1916. During this investigation 3,793 children were studied. Of these, 19, or 0.5 per cent of the total, were found to be de nitely feeble-minded and in need of careful supervision or institutional treatment....
