Many young adults in high school and college are confused and even a bit frightened about what the future holds for them. They want to get a job, buy a car, get married, become a parent, buy a home, and adopt a pet. They enter into the adult world with a lot of fears. This book is a blueprint giving guidance in how to obtain something they are serious about but have no idea how to get. The short 3,580-word book reads easily. As one person who has read this book said, I wish someone had told me all of this when I was in high school. It would have saved me a lot of problems over the years. Every high school student should read this book. The book is written with a touch of humor, but offers good, sound, proven advice.
